DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 6, 7, 9 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Chiu (6,045,284).

Chiu shows a sprinkler having a handle 13, nozzle 22, a connection structure having a first connector 11, outer threads 112, plurality of elastic retaining pieces 113, second connector 12 having a tapered construction, inner threads 121, extension pipe comprised of an outer tube 10 and inner tube 20, slide block 21 and stop washer 211.

As to claim 6, the limitation that the structure is “for connecting said nozzle to said handle...” is considered functional limitation and intended use. Since the structure of Chiu connects the nozzle with the structure indirectly through the inner tube, it is deemed that the limitation is met by Chiu’s device.

Allowable Subject Matter

3. Claims 5, 8 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
